Education

Imperial College London (2024 – 2028): MEng Computing

University of California San Diego (2026 – 2027) Year Abroad

King Edward VI Camp Hill School for Boys (2017 – 2024):

A Levels - Mathematics (A*), Further Mathematics (A*), Physics (A*), Computer Science (A)

GCSEs – six 9s, four 8s

Skills

JS & TS

Flutter

C

Databases

Web Frontend

Kotlin & Java

Python & Pip

Terminal & Git

Projects and Achievements

Social Simulator and Predictor – Created a simulation platform for interactions between people based on digitised versions of their personalities – predicted social cohesion at **ICHack 2026**.

Braille reader and Teacher - Built a pipeline from the camera to **Claude AI**, for which I set up prompts, developing Braille teaching app. **Second** place for Anthropic Award at **ICHack 2025**.

Sanketi Stories App (Android) – an audiobook app for stories in the Sanketi language. Built with **Flutter**, prepared for porting to iOS. Released on Play Store.

Predictions in Particle Colliders – filtered collisions, trained XGBoost machine learning algorithm to predict the presence of multiple particles. **First** place for **Best Research Project** (ATLAS: Big Data) 2023.

Peripheral Security System - manages security around premises, tracks personnel, has emergency alert system. Built as web-client from **JS** and **Flutter**, heavy integration with Google **Firebase**.

First Aid Training App “Learn2Help” (Android) - built to teach teens first aid, first experience with **Flutter**. Released on Play Store.
